Didam, 11 January 2021

Dear Sir, Madam,

We would like to personally inform you of a development within our sister company Novoferm.

In order to keep our Group healthy and competitive in the future, we must become more efficient. Novoferm Netherlands therefore intends to close its production location of high speed doors and other products, such as Van Seals, industrial swing doors and strip curtains, in Roermond.

What consequences do these changes have for you, as an Alpha customer? We will serve you the way you are used to with the same sales contact persons in Roermond. We will continue to offer high speed doors and other products but we will produce the high speed doors at Alpha Deuren in Didam and purchase the other products at the Spare Parts Centre in Haldern (which, like Alpha, belongs to the Sanwa Group). This enables us to continue to manufacture these doors at the most competitive price also for the future.

We have carefully considered this strategic decision. Our current actions reflect our ideas for the future. We will, of course, keep you informed of any further developments. Please do not hesitate to contact us if you need further information

With kind regards,
Alpha deuren International B.V.

Antonio Venneri
Managing Director
